AUTHENTICITIES

Dobbiamo trovare un percorso positivo, una via d'uscita dalle crisi - globali e personali. La ricerca dell'equilibrio significa ricentrare noi stessi e ripensare alle priorità della vita.

Vi è la ricerca di una connessione più profonda a tutto ciò che ci circonda. Connettersi alle nostre emozioni e connettersi agli altri, creando un legame e un senso di comunità.

Ritrovare il contatto con il nostro io interiore e il nostro benessere vince su tutto ciò che è superfluo e superficiale. Autenticità come la nostra identità più vera, autenticità che celebra un senso di appartenenza e tradizioni.

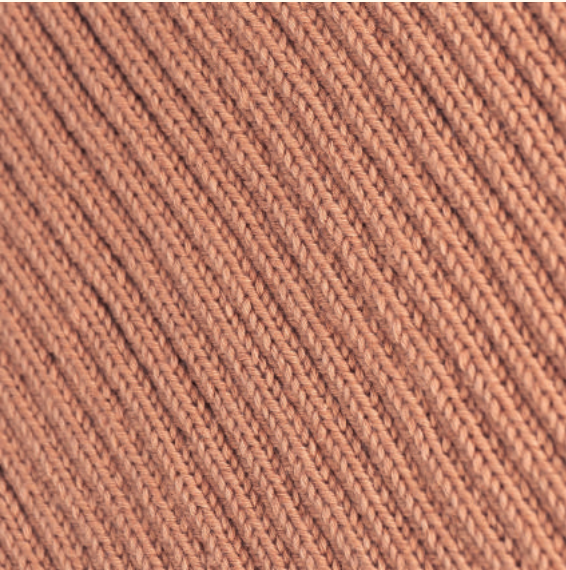

We need to find a positive path, a way through the crises - global and personal. The search for balance means recentering ourselves and rethinking our priorities in life.

There is the need to feel a deeper sense of connection to everything. Connecting to our emotions and connecting to others, creating a bond and a sense of community.

Regaining the touch with our inner self and our wellbeing wins over anything superfluous and shallow. Authenticity as our truest identity, authenticity celebrating a sense of belonging and traditions.

"We exist as single, individual entities on one level, but we are far more powerful connected to each other, to our families, to our friends, to our community. Given everything that has happened over the past years, that seems more important than ever. As a community we are infinitely more able to restore, reinvent, rejuvenate- heal." – Sarah Burton for McQueen –

CARIBBEAN RHYTHM

Vibrant · Joyful · Bold · Mismatched

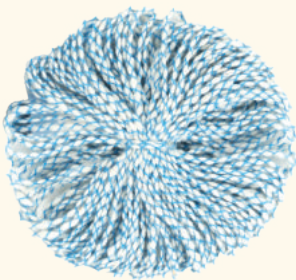

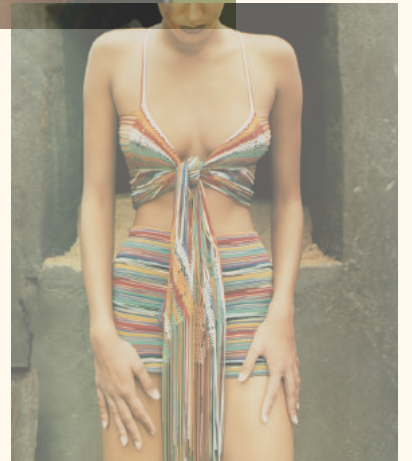

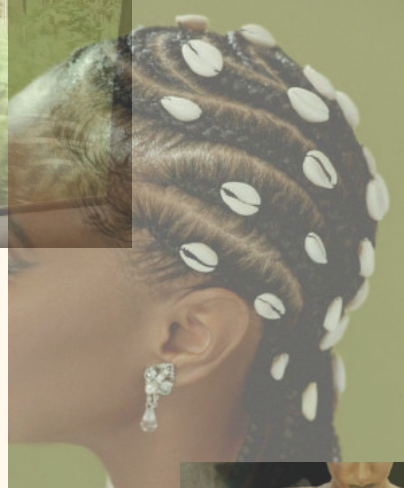

Saturn · Saturn · Linovivo · Muesli · Biocolor Mercerized · Terra · Sughero · Vimine · Organza · Feel Linen

Le vibrazioni della musica ritmica si riflettono in colori audaci e gioiosi. Toni caldi di arancio, bruciati e turchese subacqueo richiamano i panorami caraibici. La musicalità ispira un senso di comunità, di gioia pura, di movimento e di scelte audaci. L'energia risuona attraverso motivi geometrici scombinati ed effetti contrastanti: trame con fiamme irregolari lavorate assieme a filati lucidi ultra sottili e mercerizzati.

The rhythmic music vibrates in bold and playful colours. Hot oranges, auburns and scuba turquoise reflect the caribbean panoramas. The musicality inspires a sense of community, of expressing unfiltered joy, movement and bold choices. The energy resonates through geometric mismatched patterns and contrasting effects: slubbed irregular textures next to extra fine and mercerised shiny yarns.

Una nuova eleganza viene raccontata attraverso l'autenticità, gli ingredienti biologici e la longevità. I filati granulari e micro bouclés dalle texture organiche sono mescolati con filati scolpiti e fini ispirati all'ideale di perfezione. Gli opposti si attraggono: l'imperfetto e naturale si unisce a filati precisi e definiti. Entrambi progettati con un approccio sostenibile per ridurre i danni al pianeta. I neutri colorati sono scampionati da ingredienti e prodotti di bellezza naturali: marroni segale, giallo uovo e verdi aromatici.

A new elegance is told through authenticity, organic ingredients and longevity. Granular and micro bouclés yarns with natural textures are mixed with extra precise and fine yarns inspired by the perfection ideal of beauty. Two opposites attract: the imperfect and natural with the extra polished and perfected one. Both designed with a sustainable approach to reduce harm to the planet. Coloured neutrals are sampled from food ingredients and natural beauty products.

PAGES OF TIME

Un diario racconta il tempo attraverso le sue pagine, collegando passato e futuro. Interconnessi come un collage, passato, presente e futuro si dispiegano attraverso carta e tempo.

Ricordi lontani del passato come cimeli di famiglia, sbiaditi e nostalgici si traducono in lini délavé e colori retrò. Il presente si sofferma in un momento di autoriflessione, apprezzando i dettagli e rallentando il ritmo della vita. Filati crêpe e fettucce evocano la mano croccante della carta.

A diary narrates time through its pages, connecting past and future. Interconnected as a collage, past, present and future unravel through paper and time. Distant memories from the past as family heirlooms, faded and nostalgic translate into délavé linens and retro colours. The present is paused in a moment of self reflection, appreciating the details and slow pacing the rhythm of life. Crepe and taped yarns evoke the crispy touch of paper.
